Office of the Secretary to His Excellency the Governor of Bengal

NOTIFICATION.

No. 300-H.—20th August 1946.—The following is republished for general information:—

Office of the Private Secretary to His Excellency the Viceroy.

New Delhi, the 30th August 1946.

No. 205-H.—*Corrigendum.*—The reference in Notification No. 167-H, issued by the Private Secretary to His Excellency the Viceroy, to Arthur Frank Kinchin, Inspector (officiating), Calcutta Police, on page 950, Part I—Section 1 of the *Gazette of India* of the 29th June 1946, is hereby deleted.

New Delhi, the 11th September 1946.

No. 214-H.—His Excellency the Viceroy has been pleased to award a Bar to the Indian Police Medal to the following officer:—

Bengal.

Name of officer and rank.—Arthur Frank Kinchin, Inspector (officiating), Calcutta Police.

Statement of services for which the decoration has been awarded.—On the evening of the 22nd November 1945, Inspector Kinchin with a small Police party was on his way from Police Headquarters to the Medical College Hospital *via* Chittaranjan Avenue. At Colootolla Street the Inspector saw two military vehicles on fire; he could not see whether the drivers were with them or not. On the arrival of the Police party a large crowd began heavy stoning. The Inspector tried to disperse the mob by a lathi charge in order to save any possible occupants of the lorries; this was ineffective and the stoning became heavier, for the mob had increased in number when it saw how small the police party was. After due warning the Inspector fired two shots from his revolver, but the crowd on his other flank then advanced on the party with the intention of overwhelming it. The Inspector then ordered three of his Sergeants to fire and immediately made a further lathi charge. This had the effect of dispersing the crowd and allowing the Inspector to investigate the burning lorries in which he found no occupants. On the 13th February 1946 in the evening, Inspector Kinchin was sent with a police party to Dhurrumtolla Street where rioting had been reported. On reaching the Methodist Church in Dhurrumtolla Street the Inspector found a crowd of over 1,000 gathered round a fire on which they were piling furniture from the church; the crowd had also set the church on fire. On the Inspector's arrival this crowd immediately proceeded to stone the police party. The Inspector made a lathi charge which was ineffective and stones began to be thrown from side lanes. The Inspector fired four rounds from a musket which caused the crowd to withdraw a short distance. The Inspector held his position until police reinforcements and the Fire Brigade arrived. In both these incidents Inspector Kinchin showed great resolution and courage.

This award is made for gallantry under regulation (d)(i) of the Regulations governing the grant of the Indian Police Medal and consequently carries with it the special allowance admissible to officer of and below the rank of Inspector of Police.

DIRECTORATE OF AGRICULTURE, BENGAL

FINAL FORECAST OF THE JUTE CROP OF BENGAL, 1946.

[NOTE.—**On an average of the five years ending 1944-45, the areas under jute in the Province of Bengal and the Indian States of Cooch Behar and Tripura to which this forecast relates has represented some 81·6 and 1·5 per cent. respectively, to the total area under jute in India.**]

Season.—As reported in the Preliminary forecast the preparatory tillage and sowings commenced generally at normal time, but unusually heavy showers at an early stage held up sowings in some areas and hampered weeding operations adversely affecting the growth in some North and East Bengal districts. Particularly heavy damage was caused to low land areas. Weather conditions improved later on, but some damaged fields appear to have been ploughed down and brought under paddy. The crop in the West Bengal tracts was a good one.

Area.—The area under jute of 1,489,985 acres is the licensed area less the fields for which licenses were issued but which were not sown as disclosed on an examination of the jute lands under section 14 of the Jute Regulation Act.

Outturn.—As in the previous years the percentage figures are calculated on the basis of the Divisional normals which remain as follows:—

	Bales per acre.
Dacca and Chittagong Divisions	... 3·7
Rajshahi Division	... 3·5
Presidency and Burdwan Divisions	... 3·2

The total yield of the crop is estimated at 4,481,390 bales of 400 lbs. each this year as against 6,848,675 bales (revised) last year.

Additional Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BIHAR.

FINAL FORECAST OF THE JUTE CROP OF BIHAR, 1946.

[NOTE.—**On an average of the five years ending 1944-45, the area under jute to which the Bihar forecast relates has represented some 7·0 per cent. of the total area under jute in India.**]

Acreage.—The final returns of the jute-growing districts in the Province show that the area under jute is 144,900 acres as compared with 158,900 acres last year. The decrease in area is mainly due, as already stated in the Preliminary Forecast, to greater areas having been put under food crops in Purnea.

Weather condition.—In March light rain fell in all the districts except Muzaffarpur in which there was no rain. In April, however, rainfall was above the normal everywhere. In May also rainfall was above the normal everywhere. In June rainfall was above the normal in Saharsa and Purnea only and below the normal elsewhere.

Outturn.—The outturns of the crop in Champaran, Muzaffarpur, Darbhanga, Bhagalpur, Saharsa, Purnea and the Santhal Parganas are estimated at 90, 66, 60, 65, 69, 50 and 67 per cent. respectively of the normal.

Accordingly I estimate that the outturn this year will be 52 per cent. of the normal as in the last year. Taking the normal outturn to be 3½ bales per acre the gross outturn of the crop from 144,900 acres is estimated at 250,700 bales as compared with 273,700 bales last year as estimated in the final review of the crop. Adding 200,000 bales to this as probable imports from Nepal, the forecast figure for Bihar comes to 450,700 bales.

DEPARTMENT OF AGRICULTURE, ASSAM

FINAL FORECAST OF THE JUTE CROP OF ASSAM, 1946.

[NOTE.—**On the average of the five years ending 1944-45, the area under jute in Assam to which this forecast relates has represented some 8·8 per cent. of the total area under jute in British India.**]

Character of the season.—After the issue of the preliminary forecast, the weather condition improved to some extent, but high flood of July caused considerable damage to the crop specially in the districts of Cachar, Nowgong and Sibsagar where the condition of the crop is not satisfactory at all. Insects also caused some damage in certain localities.

Area sown.—The total area under the crop as estimated by the Deputy Commissioners comes to 184,500 acres against last year's actual area of 195,000 acres and 173,900 acres shown in the preliminary forecast of this year. The area reported in the preliminary forecast has been revised in all the districts except Goalpara, Sibsagar and Lakhimpur.

Outturn.—The average outturn per acre for the Province has been estimated to be 80 per cent. of the normal against 88 per cent. (revised on the basis of actual area) of last year. On the basis of the normal yield of 3·3 bales of 400 lbs. each per acre, the total production of the Province is 481,800 bales against 564,100 bales (revised on the basis of actual area) of last year.

AN

ORDINANCE

to provide for the continuance of certain emergency powers in relation to requisitioned land.

WHEREAS an emergency has arisen which makes it necessary to provide, in relation to land which, when the Defence of India Act, 1939 (XXXV of 1939), expires, is subject to any requisition effected under rules made under that Act, for the continuance of certain powers therefore exercisable under the said Act or the said rules;

AND WHEREAS the Indian Legislature has been empowered by section 3 of the India (Central Government and Legislature) Act, 1946 (9 & 10 Geo. 6, c. 39), to make laws with respect to the matters aforesaid;

NOW, THEREFORE, in exercise of the powers conferred by section 72 of the Government of India Act, as set out in the Ninth Schedule to the Government of India Act, 1935 (26 Geo. 5, c. 2), the Governor General is pleased to make and promulgate the following Ordinance:—

1. Short title, extent and commencement.—(*1*) This Ordinance may be called the Requisitioned Land (Continuance of Powers) Ordinance, 1946.

(*2*) It extends to the whole of British India.

(*3*) It shall come into force on the first day of October, 1946.

2. Definitions.—In this Ordinance, unless there is anything repugnant in the subject or context,—

(*2*) "Provincial Government" means, in relation to a Chief Commissioner's Province, the Chief Commissioner;

(*3*) "requisitioned land" means immovable property which, when the Defence of India Act, 1939 (XXXV of 1939), expires, is subject to any requisition effected under the rules made under that Act.

3. Continuance of requisitions.—Notwithstanding the expiration of the Defence of India Act, 1939 (XXXV of 1939), and the rules made thereunder, all requisitioned lands shall continue to be subject to requisition until the expiry of this Ordinance and the appropriate Government may use or deal with any requisitioned land in such manner as may appear to it to be expedient:

Provided that the appropriate Government may at any time release from requisition any requisitioned land.

4. Release from requisition.—(*1*) Where any requisitioned land is to be released from requisition, the appropriate Government may, after making such enquiry, if any, as it considers necessary, specify by order in writing the person to whom possession of the land shall be given.

(*2*) The delivery of possession of the requisitioned land to the person specified in an order made under sub-section (*1*) shall be a full discharge of the Government from all liability in respect of such delivery, but shall not prejudice any rights in respect of the land which any other person may be entitled by due process of law to enforce against the person to whom possession of the land is so delivered.

(*3*) Where the person to whom possession of any requisitioned land is to be given cannot be found and has no agent or other person empowered to accept delivery on his behalf, the appropriate Government shall cause a notice declaring that the land is released from requisition to be affixed on some conspicuous part of the land and publish the notice in the official gazette.

(*4*) When a notice referred to in sub-section (*3*) is published in the official gazette, the land specified in such notice shall cease to be subject to requisition on and from the date of such publication and be deemed to have been delivered to the person entitled to possession thereof; and the Government shall not be liable for any compensation or other claim in respect of the land for any period after the said date.

5. Power to acquire requisitioned land.—(*1*) Subject to the provisions of sub-section (*3*), the appropriate Government may, at any time when any requisitioned land continues to be subject to requisition under section 3, acquire such land by publishing in the official gazette a notice to the effect that such Government has decided to acquire such land in pursuance of this section.

(*2*) When a notice as aforesaid is published in the official gazette, the requisitioned land shall, on and from the beginning of the day on which the notice is so published, vest absolutely in the appropriate Government free from all encumbrances and the period of requisition of such land shall end.

(*3*) No requisitioned land shall be acquired under this section except in the following circumstances, namely:—

(*a*) where any works have during the period of requisition been constructed on, in or over the land wholly or partly at the expense of Government and the appropriate Government decides that the value of, or the right to use, such works should be preserved or secured for the purposes of Government; or

(*b*) where the cost of restoring the land to its condition at the time of its requisition would, in the determination of the appropriate Government, be excessive having regard to the value of the land at that time; or

(*c*) where the appropriate Government decides that such acquisition is necessary for any purpose connected with the maintenance of the defence services or with the maintenance of supplies and services essential to the life of the community.

(*4*) Any decision or determination of the appropriate Government under sub-section (*3*) shall be final, and shall not be called in question in any Court.

(*5*) For the purposes of clause (*a*) of sub-section (*3*) "works" includes buildings, structures and improvements of every description.

6. 7. Power to obtain information.—(*1*) The appropriate Government may, with a view to carrying out the purposes of sections 3 to 6, by order require any person to furnish to such authority as may be specified in the order such information in his possession relating to any requisitioned land as may be so specified.

(*2*) If any person fails to furnish any information required by an order under sub-section (*1*), or furnishes any information which is false and which he either knows or has reasonable cause to believe to be false or does not believe to be true, he shall be punishable with imprisonment for a term which may extend to one year or with fine or with both.

8. Delegation of functions.—The Central Government or any Provincial Government may, by order notified in the official gazette, direct that any power conferred or any duty imposed on it by this Ordinance shall, in such circumstances and under such conditions, if any, as may be specified in the direction, be exercised or discharged by such officer as may be so specified.

9. Protection of action taken under this Ordinance.—(*1*) No suit, prosecution or other legal proceeding shall lie against any person for anything which is in good faith done or intended to be done in pursuance of this Ordinance or any order made thereunder.

(*2*) Save as otherwise expressly provided under this Ordinance, no suit or other legal proceeding shall lie against the Crown for any damage caused or likely to be caused by anything in good faith done or intended to be done in pursuance of this Ordinance or any order made thereunder.

CALCUTTA IMPROVEMENT TRUST

Calcutta, the 20th September 1946.

Bengal Slum Improvement Act, 1945.

Notification under sub-section (3) of section 6, Bengal Act XVI of 1945.

Re:—109 & 110, Ultadanga Main Road, Calcutta.

Whereas by notification 24-Parganas No. L.S.-G.-628/45/1A, dated 20th December 1945, in exercise of powers conferred by sub-section (*1*) of section 3 of the Bengal Act XVI of 1945, the Governor was pleased to declare the area occupied as a Bustee in Nos. 109 and 110, Ultadanga Main Road, to be a slum area.

And whereas by letter No. L.S.-G.628/45/1A, dated the 21st December 1945, the Government of Bengal, under sub-section (*1*) of section 4 of the said Act XVI of 1945 authorised the Board of Trustees for the Improvement of Calcutta, constituted under the Calcutta Improvement Act, 1911 (Bengal Act V of 1911), to prepare a scheme for the improvement of the aforesaid slum area in Nos. 109 and 110, Ultadanga Main Road, together with an estimate of the cost of execution of the scheme.

And whereas the Board of Trustees for the Improvement of Calcutta prepared a scheme and estimate under section 4 of the said Act XVI of 1945 and a notice under sub-section (*1*) of section 5 of the said Act XVI of 1945 was published in the supplement to the *Calcutta Gazette*, dated the 21st February 1946;

And whereas the Board of Trustees for the Improvement of Calcutta after hearing objections to the said scheme under sub-section (*2*) of section 5 of the said Act XVI of 1945 submitted the said scheme and estimate to the Bengal Government for sanction.

And whereas by letter No. L.S.-G.46/45/4B, dated the 26th July 1946, the Government of Bengal approved of the said scheme and estimate under the proviso to sub-section (*2*) of section 5 of the said Act XVI of 1945.

And whereas by letter No. 696, dated the 3rd August 1946, the Board of Trustees for the Improvement of Calcutta informed the Government of Bengal that in their opinion the owners of the land and other immovable property in the slum area were unable to bear the entire amount of the actual cost of the approved scheme and by letter No. L.S.-G.46/45/4B, dated the 8th August 1946, the Government of Bengal under sub-section (*1*) of section 7 of the said Act XVI of 1945 fixed the amount payable by the owners of the property in the slum area in respect of the approved scheme at 50 per cent. of the estimated cost.

Now therefore in accordance with sub-section (*1*) of section 7 and sub-section (*2*) of section 6 of the said Act XVI of 1945 the Board of Trustees for the Improvement of Calcutta have equitably apportioned the estimated cost to be borne by the owners of the land and the owners of the immovable property in the slum area in respect of the approved scheme as under:—

No. 3572Pl.—22nd October 1946.—In exercise of the power conferred by section 2 of the Dacca Area Security Ordinance, 1946 (Bengal Ordinance VIII of 1946), the Governor is pleased to specify the areas mentioned in the schedule below to be the areas which together with the municipality of Dacca shall be the Dacca area within the meaning of the said section.

The Schedule.

The areas included within the Keraniganj, Tejgaon, Narayanganj and Fatulla police-stations in the district of Dacca.

No. 3573Pl.—22nd October 1946.—Whereas the Governor is satisfied for the reasons hereinafter set forth that the public tranquillity and security of life and property in the Dacca area are endangered;

Now, therefore, in exercise of the power conferred by section 3 of the Dacca Area Security Ordinance, 1946 (Bengal Ordinance VIII of 1946), the Governor is pleased to declare that a state of emergency exists in the said area.

Reasons.

The recent disturbances in the municipality of Dacca which involved serious loss of life and property were due to conditions which have not yet been removed. Bitter feelings still subsist between the Hindu and Muslim communities and there remains a danger of fresh outbreaks of communal strife. The Governor is therefore satisfied that a state of emergency exists and that the use of the powers conferred upon him by the said Ordinance is necessary to bring it to an end.

The decision of the Labour Commissioner on such appeal shall be final.

Limitation of prosecution.

15. No Court shall take cognizance of any offence against this Act or any rule thereunder unless complaint thereof has been made to the Inspector of Factories within six months of the date on which the offence is alleged to have been committed.

Abstract of this Act and the rules thereunder to be exhibited.

17. An abstract of the provisions of this Act and the rules thereunder in the local vernaculars shall be exhibited in a conspicuous manner by the employer in every part of a factory or a plantation in which women are employed.

STATEMENT OF OBJECTS AND REASONS.

The Royal Commission on Labour in India made two separate recommendations regarding the provision of maternity benefits, one for women employed in perennial factories and the other for women employed in plantations. The recommendation regarding perennial factories has been implemented by the passing of the Bengal Maternity Benefit Act, 1939. The object of the present Bill is to implement the recommendation regarding plantations.

On enquiry it transpired that the system of paying maternity benefits in one form or other was in vogue in the majority of the plantations, but some sort of legislative compulsion is considered necessary to regularise the system and to extend it to those plantations in which it does not at present exist. This Bill is designed to secure this object. The matter was discussed in a conference with the representatives of the majority of the tea plantations and the provisions contained in the Bill are based on the conclusions reached in that conference.

W. M. CLARK, Additional Director of Agriculture,
for Director of Agriculture, Bengal.

Calcutta, the 22nd October 1946.

DIRECTORATE OF AGRICULTURE, BENGAL.

Calcutta, the 30th September 1946.

First Forecast of the Winter Rice Crop of Bengal for 1946-47.

(*Note.*—On an average of the five years ending 1944-45, the area under winter rice in Bengal has represented some 21·8 per cent. of the total area under rice in India.)

Character of the season.—Rainfall in the earlier part of the season was insufficient for preparatory tillage. Subsequent rainfall from the end of March was very beneficial for cultivation of broadcast aman and the sowings took place at the normal time and rate, specially in north and south-east Bengal. But floods and unusually heavy showers accompanied by cyclones and hailstorms, when sowing was in progress in the latter part of April, affected the progress of sowing and subsequently raising of aman seedlings specially in the districts of Rajshahi, Dinajpur, Rangpur, Bogra, Pabna, Mymensingh, Dacca, Chittagong, Chittagong Hill-tracts, Faridpur, Bakarganj and Noakhali.

Transplantation commenced, as usual, in July and continued up to the middle of September under favourable weather conditions, everywhere, excepting in Bakarganj, Noakhali and some other places, where seedlings were repeatedly damaged by floods.

Some damage to the standing aman crop has also been caused by excessive rains and flood from rivers in some parts of Noakhali, Faridpur, Bakarganj, Malda, Jessore, Birbhum, Midnapore and Hooghly.

The condition of the crop in the remaining parts of the province is quite favourable. The present outlook of the crop, for the province as a whole, may be regarded as satisfactory.

Acreage.—The total area under winter rice this year is estimated at 19,909,500 acres as against 19,605,300 acres and 19,470,700 acres as shown in the corresponding and the final forecasts, respectively, of last year.

Outturn.—The outturn of the crop for the province is estimated at 84 per cent. of the normal this year, as against 81 per cent. and 82 per cent. shown in the corresponding and the final forecasts, respectively, of last year.

W. M. CLARK,
Addl, Director of Agriculture, Bengal.

DIRECTORATE OF AGRICULTURE, BENGAL.

Calcutta, the 30th September 1946.

Preliminary Forecast of the Bhadoi Crops of Bengal for 1946-47.

(*Note.*—On an average of the five years ending 1944-45, the area under autumn rice in Bengal has represented some 8·6 per cent. of the total area under rice in India.)

Character of the season.—In some parts of the province, rainfall was insufficient for preparatory tillage. Subsequent rainfall was favourable and sowings started generally in normal times; but unusually heavy showers in April and May checked the progress of sowings, hampered weeding operations and considerably damaged the crops in the early stages, in north and south-east Bengal, more especially in the districts of Rajshahi, Dinajpur, Rangpur, Bogra, Pabna, Mymensingh, Tippera and parts of Noakhali. As the cultivation of bhadoi crops in south-west Bengal normally starts later, the rainfall in April, May and June was beneficial for preparing lands and for sowing and weeding. As such, the season in this part of the province has been good. In July, the circumstances turned very bad in the districts of Chittagong, Chittagong Hill-tracts, Noakhali, and parts of Tippera, Pabna and Bakarganj where standing crops specially aus were considerably damaged by excessive rains and floods. Since then there has been further damage to crops to a less extent in some subdivisions of Malda, Jessore, Birbhum, Hooghly and Midnapore due to excessive rains and flood in rivers. The condition of the crops in the rest of the province has been quite favourable and the anticipated increased production thereof, is likely to compensate for the loss sustained in the flood-affected areas, to a considerable extent.

Acreage.—The total area sown with different bhadoi crops this year is estimated at 7,344,500 acres as against 7,342,300 acres and 7,362,500 acres shown in the corresponding and the final forecasts respectively of last year.

Of this, the area under autumn rice is estimated at 6,699,200 acres as against 6,671,500 acres and 6,671,400 acres shown in the preliminary and the final forecasts respectively of last year.

Outturn.—The outturn of different bhadoi crops for the province is estimated at 73 per cent. of the normal this year as against 83 per cent. and 78 per cent. shown in the corresponding and the final forecasts, respectively, of last year.

The outturn of autumn rice is estimated at 73 per cent. of the normal this year, as against 84 per cent. and 79 per cent. shown in the preliminary and the final forecasts respectively of last year.

No. 3737Pl.—7th November 1946.—In exercise of the power conferred by section 2 of the Dacca Area Security Ordinance, 1946 (Bengal Ordinance VIII of 1946), the Governor is pleased to make the following amendment in notification No. 3572-Pl., dated the 22nd October 1946, published at page (i) of Part I of the *Calcutta Gazette, Extraordinary*, of the 22nd October 1946, namely:—

Amendment.

To the schedule to the said notification *add* the following:—

"and so much of the areas included within the Lalbagh police-station in the said district as is not included within the municipality of Dacca".

No. 3738Pl.—7th November 1946.—Whereas the Governor is satisfied for the reasons hereinafter set forth that the public tranquillity and security of life and property in the Dacca Area are endangered;

Now, therefore, in exercise of the power conferred by section 3 of the Dacca Area Security Ordinance, 1946 (Bengal Ordinance VIII of 1946), and in supersession of notification No. 3573Pl., dated the 22nd October 1946, published at page (ii) of Part I of the *Calcutta Gazette, Extraordinary*, of the 22nd October 1946, the Governor is pleased to declare that a state of emergency exists in the said area.

Reasons.

The recent disturbances in the municipality of Dacca which involved serious loss of life and property were due to conditions which have not yet been removed. Bitter feelings still subsist between the Hindu and Muslim communities and there remains a danger of fresh outbreaks of communal strife. The Governor is therefore satisfied that a state of emergency exists and that the use of the powers conferred upon him by the said Ordinance is necessary to bring it to an end.

ORDER.

No. 5783Com.—30th October 1946.—The following report submitted by Mr. R. Gupta, I.C.S., appointed as Board of Conciliation under section 6 of the Trade Disputes Act, 1929, in the trade dispute between the National Tobacco Company of India, Limited, of Agarpara (Managing Agents Messrs. B. N. Elias Company, Limited) and their workers represented by the National Tobacco Company Mazdoor Union of 16, Shibtola Lane, Beliaghata, Calcutta, under this department Order No. 4457Com., dated the 26th August 1946, is published for general information:—

Report.

A trade dispute having arisen between the National Tobacco Co. of India, Ltd., of Agarpara (Managing Agents Messrs. B. N. Elias and Co., Ltd.) and the workmen of the said Company represented by the National Tobacco Company Mazdoor Union, it was referred under section 3(*b*) of the Trade Disputes Act, 1929, to a Board of Conciliation by the Government of Bengal, and I was appointed to constitute the Board. Fourteen issues were framed by Government for investigation.

I first called upon the Union to submit its written statement upon these issues. When the Union had done so a copy of the statement was made over to the employers and they were asked to file their statement in reply. After both statements had been filed before me the hearing of the matter took place on 8th October 1946. I should mention here that the Government order appointing me in the Board of Conciliation was dated 26th August 1946. The delay in bringing the matter to hearing was caused by various factors such as the aftermath of the riots and the intervention of the Puja Holidays which made it difficult for the parties to attend earlier.

At the hearing before me the Company was represented by Mr. S. D. Morris, Manager of the Factory, Mr. J. Lee, Chief Labour Officer, Jute Mills Association, who stated that he had been deputed by the Bengal Chamber of Commerce in an advisory capacity, and Mr. S. C. Ghosh of Messrs. Orr Dignum and Co., Solicitors. The Union was represented by Mr. S. N. Chowdhury, who stated he was an honorary member of the Union, Mr. N. C. Sircar, President of the Union, and Mr. Shamsul Huq, Secretary of the Union. I may mention here in passing that none of the three gentlemen representing the Union is actually a worker in the Factory where the dispute has arisen. I would like to thank both parties for their assistance at the hearing which was conducted in an atmosphere of reasonableness on both sides. On certain of the issues raised in the dispute a certain measure of agreement was reached as I shall mention below. On the remaining issues no agreement could unfortunately be reached between the parties; and therefore I submit to Government my recommendations as required under section 7(*iii*) of the Trade Disputes Act, 1929.

Issue No. 1.—The point for investigation here is whether the minimum basic wage at the Factory should be twelve annas per day. The minimum wage in force at present is Rs. 3-9-6 per week for 54 hours. In actual fact however I was informed that a 48 hours week was being worked. The Company contended that the current rate had been agreed upon between the parties in a settlement which is to be found set out in letter No. 4491L.C., dated 23rd May 1946, from the Assistant Labour Commissioner, Bengal, to Messrs. B. N. Elias and Company, Limited, a copy of which forms schedule "A" of the Company's written statement. Item No. 9 in this letter fixes the minimum basic rate as above. The Union however vehemently denied that any such settlement had been reached. I looked through the file of this case maintained in the Labour Commissioner's Office and I must say that I was unable to discover any justification for holding that a settlement had indeed been arrived at between the Company and its workers on this and other points. I think the Company's contention is based upon a misconception. The Labour Officer who handled this case at the relevant time has also informed me to this effect.

In my opinion the demand for a basic minimum wage of twelve annas per day is quite reasonable and cannot be refused. Reckoning 26 working days per month the monthly income of a worker at this rate would be Rs. 19-8. It can hardly be argued that anything less than this constitutes a living wage This minimum wage is already paid by a large number of industrial concerns in the Calcutta area. In my opinion this demand of the Union must be granted and I recommend that the minimum basic wage in this Factory should be 12 annas per day. I might mention that it was stated at the hearing on behalf of the Company that it was prepared to leave this question to me and would accept my recommendation.

Issue No. 2.—The question here is whether all employees, whether on daily or monthly rates, should receive a minimum dearness allowance of Rs. 20 per month. So far as daily rated workers are concerned the Company has stated that Rs. 20 is already the minimum dearness allowance. From the Company's written statement however it appears that this minimum dearness allowance is not paid to all monthly rated workers. In the

Company's statement a list is given of various categories of monthly rated workers and the pay and allowances they receive. A glance at that list shows that there are several categories such as plate makers and electricians whose minimum dearness allowance is less than Rs. 20. It is true that these persons are shown as receiving two bonuses a year, but I do not think that such bonus payments can be taken into account in lieu of dearness allowance. Bonus is in the nature of an *ex-gratia* payment and further it bears some relation presumably to the Company's profits. The Company may stop such payments at any time it chooses. Dearness allowance is of an altogether different kind. In the case of all the categories of workers dealt with in the Company's statement relating to this issue various allowances are shown. There is an allowance of 10 per cent. of the pay; there are further fixed payments such as, for instance, Rs. 8 to Head Fitters, Artists, plate makers, etc., which are also paid as allowances. It is not clear which of these allowances are intended to constitute dearness allowance, and which are not. I believe that all these have, from time to time, been paid by the Company to help the workers to meet the increasing cost of living. Nonetheless they are not specifically called dearness allowance. I think the payment of these unspecified allowances leads to difficulties which may well have been avoided if the Company had definitely stated which of them were to be taken as dearness allowance.

I recommend that all workers of the Company, whether daily or monthly rated, should receive a minimum dearness allowance of Rs. 20 per month. Those who at present are receiving more than that amount must of course continue to do so. I should like to make it clear that this recommendation covers *all* employees of the Company including the clerical staff.

Issue No. 3.—The dispute here is whether the Company should introduce a provident fund for all its workers. The Company points out that it has introduced a pension fund scheme and that therefore it should not be asked to start a provident fund as well. The Union contends that the workers are very emphatically and overwhelmingly in favour of having a provident found rather than a pension fund. This is not a new controversy. It is one which has frequently arisen in the Calcutta industrial area. I do not think it is necessary for me to enter into an elaborate discussion of the reasons why workers prefer a provident fund. These reasons are wellknown to all employers. My personal experience covering a large number of industrial disputes is that a pension fund scheme will never be acceptable to the workers as a substitute for a povident fund scheme. Inasmuch as a pension fund scheme is already in existence I find it difficult to recommend that it should be scrapped and in its place a provident fund scheme should be introduced. At the same time it seems to me that in the interests of industrial peace and good relations between employers and employees the Company would be well advised to consider seriously whether any useful purpose will be served by preserving with some thing which is so unpopular with the very persons for whose benefit it purports to have been introduced. I leave the matter at that and do not make any specific recommendation for starting a provident fund scheme.

Issue No. 4.—The question here is whether the Company should make arrangements to supply soap from its shop. This demand was, after discussion, given up by the Union.

Issue No. 5.—The point for enquiry and decision here is whether the wages paid to the clerical staff are adequate. The Company's written statement shows that certain increments were introduced with effect from 1st June 1946, as a result of which the clerical staff are now on a grade of Rs. 40 to Rs. 130. This increase was effected by consolidating into basic pay some of the allowances which were being given. Now, while I do not say that Rs. 40 to Rs. 130 is a lavish scale, one must consider it in the light of rates prevailing generally in this area for clerical workers. Judged in this way I find it impossible to hold it to be too low and I cannot therefore recommend its further increase.

I note that the clerical staff receive dearness allowance amounting to Rs. 5-8 per month. This is, in my opinion, much too low. The Company might be inclined to argue that the new rates of pay are the result of consolidation of some of the old allowances into the basic pay. It may be that such consolidation has taken place, but it is clear that the old basic rate of Rs. 28 to Rs. 85 could hardly be called a fair wage for this kind of worker and by increasing the basic rates of the Company has simply introduced what is a reasonable living wage. This increase since 1st June 1946 cannot therefore be set off, against dearness allowance. The clerical staff should also receive a minimum dearness allowance of Rs. 20 as recommended by me under Issue No. 2.

Issue No. 6.—In my opinion the Union have not succeeded in making out a case for payment of an attendant bonus. Such a bonus is not a recognised and established thing in the Calcutta industrial area. It used to be paid during the war as an incentive to workers to be regular in attendance when there was danger of air raids. The circumstances now are quite different. If the Company finds it worth while to offer any such incentive it will no doubt do so of its own accord, but I cannot see any justification for recommending any such bonus.

Issue No. 7.—The point for decision here is whether workers other than durwans and drivers should be given any casual leave with pay. The present leave with pay facilities are as follows:—Six festival holidays, 10 consecutive days' leave (under the Factories Act amendment), one week's sick leave.

The demand of labour for a certain amount of casual leave in the year is not based on altogether unreasonable grounds. The health of poorly paid workers and their families in this country is not good. Families are large. Various kinds of domestic crises occur from time to time such as illness, marriages, sradh ceremonies, other religious ceremonies, and so on. On such occasions a worker has to remain at home. It is to meet such contingencies that casual leave is demanded.

In making my recommendation, however, I have to take into account, and give due weight to, the conditions of work which exist in industry in general in this area. Any marked departure from existing conditions should not take place through the recommendation of a Conciliation Board deciding a particular case, but through other channels such as the Legislature, or negotiation between employers and workers on a much wider basis. For these reasons while I appreciate the workers' demands for casual leave and sympathise with them, I do not feel justified in making a formal recommendation in their favour on this point.

Issue No. 8.—The Union's demand is that wages should be paid monthly instead of weekly as at present. Although the Union representatives urged before me that all the workers were in favour of monthly payment I am not satisfied that this is really so. Even if all the workers of this factory prefer monthly payment I feel considerable doubt in my own mind as to whether such a system

is preferable in the workers' interests to that of weekly payment. In deciding this question one has to bear in mind the class from which Indian workers are drawn, their habits and customs, their general poverty and lack of education, the lack of credit facilities offered by merchants and traders to this type of customer these days, and so on. Everything considered I am unable to feel satisfied that a clear case has been made out for a change over from weekly to monthly payment. One of the points emphasised by the Union however was that under a system of monthly payment of wages the worker would receive much fuller details on his pay slip. I do not see why a pay slip containing full details should not be issued when payment is made weekly and in order to remove this grievance I recommend that the Company should give full details on its weekly pay slips.

Issue No. 9.—The issue as framed is vague and impossible of decision. It reads as follows: "Whether a yearly bonus of one month's pay should be given to all workers including durwans and drivers. If so, on what terms and conditions?" It is not clearly understood what is meant by this. Does this question of bonus relate to any particular year? Presumably not, since no year has been specified. I am therefore left in the position of having to decide whether the Company should give one month's pay as bonus for an unspecified period in the future. It is impossible for me to decide any such question in a hearing of this nature. I am therefore unable to make any recommendation under this head.

Issue No. 10.—Under this issue I am asked to decide in what manner security of service should be guaranteed to permanent workers of the Company. Under the Industrial Employment Standing Orders Act, 1946, the Company will shortly have to frame conditions of services for its employees and place them before the Labour Commissioner for ratification. In my opinion this matter may be left to be decided at that time. The Labour Commissioner will no doubt use his influence to see that fair conditions and adequate security are provided for.

Issue No. 11.—This issue concerns the question of minimum pay of durwans and drivers of the Company.

The position as regards durwans is that at present they receive a monthly pay of Rs. 20 and a further allowance of Rs. 30-8. This sum of Rs. 30-8 is made up as follows:—

Day allowance—Rs. 15; 10 per cent. of salary Rs. 2; amenities allowance Rs. 8; and grain allowance Rs. 5-8. It is not at all clear what is exact purpose of the above different allowances other than grain allowance. I do not know whether they have, from time to time, been given in order to meet the rising cost of living. If that is so one would have expected the whole thing to be specifically called a dearness allowance. The present position appears to me to be somewhat absurd when we find a basic salary of Rs. 20 and allowance amounting to Rs. 30-8. However, the point at issue is the question of basic pay and I have to consider whether a basic pay of Rs. 20 is or is not adequate. In this connection I may mention that in two other firms carrying on the same type of business, viz., Messrs. Godfrey Philips Limited, and the Imperial Tobacco Company, the basic pay of durwans is Rs. 40 and Rs. 22-8 per month respectively. It is to be noted that durwans work in two shifts of 12 hours per day which it must be considered is a long days work.

Further they have to remain on duty on the ordinary weekly holiday. Taking all these circumstances into account as also the responsible nature of their work I think a fair basic pay for durwans would be Rs. 30 per month. In the light of my recommendation under Issue No. 2 these employees will also be entitled to a dearness allowance of Rs. 20 per month. If my proposal is accepted the Company will not be the loser because durwans would still be receiving a total made up of basic pay and allowances which is not greater than what they are receiving now. On the other hand it would be advantageous to both sides if the various allowances now being paid be lumped together and specifically called dearness allowance.

As regards drivers their present pay is as follows:—

Junior drivers Rs. 40 per month and senior Rs. 60 per month. In addition both categories receive Rs. 19-8 as allowances. In addition to all this every driver receives what is called "trip allowance" at the rate of twelve annas for the first trip and eight annas for each subsequent trip outside a radius of 8 miles. It was contended on behalf of the Company that the average earning of a driver by way of trip allowance is Rs. 15 per month. This was however not borne out by the figures covering several months shown to me at the hearing by the learned solicitor appearing for the Company. I would say the average earning was nearer Rs. 8. Assuming that trip allowance rates remain the same and dearness allowance is paid at the rate of not less than Rs. 20 per month I do not think any sufficient case has been made out for increasing the basic pay of drivers.

To sum up under this issue my recommendation is that the basic pay of durwans should be raised to Rs. 30 per month. The basic pay of drivers should remain the same as at present. Both the categories should receive a dearness allowance of at least Rs. 20 per month, and trip allowance should remain the same as at present.

I may mention here that the Company both in its written statement and during the hearing took the objection that drivers and durwans are not workmen within the meaning of the Trade Disputes Act. A workman is defined under section 2(*k*) of the Act and upon a consideration of that definition I am quite unable to agree with the Company that it does not cover both these classes of workers.

Issue No. 12.—This issue relates to the leave facilities of durwans and drivers. The present position regarding durwans is twelve days' leave with pay per year, plus two festival holidays on pay, plus such sick leave as the Company's doctor recommends. The Union's demand for one month's leave plus fifteen days' casual leave plus seven festival holidays is excessive. I think, however, that in place of twelve days they should get at least fourteen days on pay per year. The majority of them are up-country men who wish to go home once a year. For this purpose a period of not less than fourteen days is adequate. I recommend that durwans get fourteen days' leave on pay in the year in addition to such other leave facilities as they are now enjoying.

Drivers at present get two weeks' leave on pay plus ten days' sick leave in the year. Compared with other categories of workers in this factory and with leave facilities given by other firms this does not appear to be unreasonable. I am unable to recommend any further increase.

Issue No. 13.—The Union has demanded that piece rate workers should be paid at the rate of Rs. 1-8 per day for those working days on which they report themselves for duties but are not given any work by the Company presumably because there is none to offer them. The Company in its written statement has given certain figures of the average earnings of piece rate workers excluding

dearness allowance. Assuming these figures to be correct—and they were not challenged before me by the Union—it is clear that piece rate workers' earnings are substantially higher than those of the daily rated workers. The Union has not given any indication, which might lead one to think that non-working days for these workers are very frequent. The position therefore is that these workers usually earn considerably more than other categories who are not on piece rates but that on certain days when there is a lack of work they earn nothing. On the materials before me I do not find that any case has been made out for recommending the payment of Rs. 1-8 per day to such workers on days when no work can be given to them.

It is just possible that the workers' case on this point was not very clearly put before me and I would like to add this. In case the piece rate workers meant to say that they are worse off in the matter of earnings than daily rate workers because of such involuntary stoppages of work I recommend that the Company allow them to elect to come on to daily rates. Such election once made by a worker must be final and he cannot be allowed to ask to be put back to piece rates once he has gone off them. If no vacancies exist for absorbing any or all of those who elect to change over they may be absorbed into the daily rate cadre as vacancies occur in the future.

Issue No. 14.—I have not been able to accept the Union's demand under this issue. So long as a worker has one day off in the week I do not see what real grievance he can have if that day does not happen to be a Sunday. Circumstances may arise which may make it impossible for the Company to give the day off on a Sunday. To take one instance the maintenance staff in a factory may often have to work on Sundays when other staff are on holiday in order to attend to the machinery. Sunday is the most suitable day for this kind of work and therefore the maintenance staff must work on that day. This is only one instance which I am giving, there may be others. In my opinion no case has been made out for counting Sunday work as overtime even if such work is within the maximum hours prescribed by the Factories Act.

This concludes the issues which were submitted to me for investigation. I should add that the Union wanted me to go into the question of certain pending litigation. It appears that in the Barrackpore Courts there are some criminal cases pending brought by the Company or (as was alleged) its agents against Union members and *vice versa*. As this was not an issue sent to me for decision I declined to go into it. I did however appeal to both sides in the interests of future good ralations between the parties to withdraw all such cases. The impression I got was that the Union was prepared to do so provided the other side did the same. I would again appeal to both sides to follow this course of action as it must be obvious that as long as this source of irritation remains there will be constant friction between the Company and the Union.

5. The Director-General or any person authorised by him in that behalf in writing may, by order in writing, direct any dealer or producer—

(*4*) No dealer or producer shall sell or offer for sale or otherwise dispose of to any person any scheduled commodity for a price or at a rate exceeding the maximum fixed or deemed to have been fixed under sub-paragraph (*1*).

(*5*) In this paragraph, a "dealer" or "producer" includes—

(*a*) any person employed by or acting on behalf of, the dealer or producer and any person having charge on behalf of the dealer or producer of the place of business of such dealer or producer, as the case may be, and

(*b*) an auctioneer selling any scheduled commodity on behalf of a dealer or producer, as the case may be.

7. (*1*) Where no maximum has been fixed or is deemed to have been fixed under sub-paragraph (*1*) of paragraph 6 in respect of any scheduled commodity or where no maximum price or rate which may be charged by any dealer or producer in respect of any scheduled commodity has been fixed under any other law for the time being in force regarding the price of such scheduled commodity, no dealer or producer shall sell or offer for sale or otherwise dispose of such scheduled commodity for a consideration which is unreasonable.

(*2*) For the purposes of this paragraph a consideration is unreasonable if, whether it is exclusively in money or not—

(*a*) the purchaser is, as a condition of sale, required to purchase at the same time any other article;

(*b*) where the sale is by a dealer, the consideration exceeds the amount represented by the addition allowed by the normal trade practice in force on the 31st day of August, 1939, to—

(*i*) the landed cost of the scheduled commodity in the case of a scheduled commodity imported into Bengal, or where the scheduled commodity is delivered to the consignee elsewhere than at the port of entry or the place to which it is despatched in Bengal, that cost increased by any charges incurred for freight and any duty or other charges before delivery, or

(*ii*) the price at which the producer sold the scheduled commodity in Bengal in the case of a scheduled commodity which is not so imported;

(*c*) where the sale is by a producer, the consideration exceeds the amount represented by the addition allowed by the normal trade practice in force on the 31st day of August, 1939, to the cost of production of the scheduled commodity, such cost of production being deemed to be exclusive of the amount, if any, by which the price paid by the producer for any component part of the scheduled commodity exceeded—

(*i*) the maximum price fixed or deemed to have been fixed for the component part under sub-paragraph (*1*) of paragraph 6 and in force at the time of its purchase by the producer, or

(*ii*) where no maximum price has been so fixed or deemed to have been fixed for the component part, the amount represented by the addition allowed by the normal trade practice in force on the 31st day of August, 1939, to the cost of production of the component part:

Provided that where the addition allowed by such normal trade practice exceeds or is alleged to exceed 20 per cent. the dealer or producer, as the case may be, shall report the fact to the Director-General who may either sanction such addition or, for reasons to be recorded in writing, order its variation; and the dealer or producer, as the case may be, shall be deemed to sell for a consideration which is unreasonable if such report has not been made or if after such report has been made and the Director-General has varied such addition, the price charged exceeds the limits approved by the Director-General under this proviso.

(*3*) The Director-General may make or cause to be made a certificate stating the landed cost of any imported scheduled commodity dealt in by a dealer and shall, on request made by any dealer, grant or cause to be granted to that dealer a certificate stating the landed cost of any such imported scheduled commodity.

(*4*) For the purposes of this paragraph the landed cost of any imported scheduled commodity shall, save as hereinafter provided, be the cost thereof to the importer, that is to say, the sum of—

(*i*) the price of the scheduled commodity charged by the importer in the country or province of origin;

(*ii*) freight, marine and war risks insurance, if any, and other charges, incurred in respect of the scheduled commodity up to the time when it is delivered to the transit sheds at the port of entry or the place to which it is despatched in Bengal;

(*iii*) the amount of duties and such other charges payable on the importation of the scheduled commodity:

Provided that if, in the opinion of the Director-General, there is substantial disparity—

(*a*) between the landed cost so determined of the scheduled commodity and the landed cost of any other similar commodity, or

(*b*) between the consideration for the sale of the scheduled commodity computed on the basis of its landed cost so determined and the maximum prices fixed or deemed to have been fixed under sub-paragraph (*1*) of paragraph 6 at which any other similar scheduled commodity, whether imported or not, may be sold.

the Director-General may, in making a certificate referred to in sub-paragraph (*3*) in respect of the scheduled commodity, take such disparity into consideration and fix the landed cost of the scheduled commodity at such amount as he thinks proper for the removal of such disparity.

(*5*) In this paragraph, a dealer or producer shall be deemed to include—

(*a*) any person employed by, or acting on behalf of, the dealer or producer and any person having charge on behalf of the dealer or producer of the place of business of such dealer or producer, as the case may be, and

(*b*) an auctioneer selling any scheduled commodity on behalf of a dealer or producer, as the case may be.

8. Every dealer or producer, or any person employed by, or acting on behalf of, or being in charge of the place of business of, any dealer or producer, selling any scheduled commodity to any person, whether a dealer or a consumer or otherwise, shall give to the purchaser at or before the time of delivery of the scheduled commodity a memorandum containing such particulars of the transaction as may be specified by the Director-General and different particulars may be so specified in respect of different classes of transactions:

Provided that where the total amount of the purchases at the transaction is less than ten rupees, it shall be obligatory to give such memorandum only if the purchaser so requires.

9. (*1*) The Director-General may direct any dealer or producer to mark scheduled commodities exposed or intended for sale with the sale prices or to exhibit on his premises a price list of scheduled commodities held by him for sale, and may further give directions as to the manner in which any such direction as aforesaid is to be carried out.

(*2*) A direction under sub-paragraph (*1*) may be issued by a notified order generally to all dealers in or producers of a particular scheduled commodity or particular scheduled commodities.

(*3*) No dealer shall destroy, efface or alter or cause to be destroyed, effaced or altered any label or mark affixed to any scheduled commodity and indicating the price marked by a producer.

10. (*1*) The Director-General or the Director-General of Enforcement or any officer authorised in writing by the Director-General or the Director-General of Enforcement in this behalf may, with a view to securing compliance with this Order, by written order—

(*a*) direct a dealer or producer to maintain records of all sale and purchase transactions in such manner as he may require;

(*b*) direct a dealer or producer to furnish any information he may require as to the business carried on by such dealer or

producer, or to submit such periodical returns regarding the stocks, purchase, sale, distribution or disposal of any scheduled commodity to such authority and within such time as may be specified in the Order;

(*c*) direct a dealer or producer to furnish any information possessed by such dealer or producer as to the business carried on by any other person;

(*d*) inspect or cause to be inspected any books or other documents belonging to or under the control of any dealer or producer.

(*2*) The Director-General may, by notified order, issue to all dealers or producers of a specified class a direction such as is referred to in clause (*a*) or clause (*b*) of sub-paragraph (*1*).

11. The Director-General or the Director-General of Enforcement or any officer authorised in writing by the Director-General or the Director-General of Enforcement in this behalf may, with a view to securing compliance with this order or with any order made under or deemed to have been made under section 3 of the Bengal Consumer Goods Control Ordinance, 1946—

(*a*) stop and search or authorise any person to stop and search any vessel found in inland waterways or any vehicle or any animal used or capable of being used for the transport of any scheduled commodity;

(*b*) enter and search or authorise any person to enter and search any premises;

(*c*) seize or authorise the seizure of, any scheduled commodity in respect of which he suspects that a contravention of this Order or of any order made under or deemed to have been made under section 3 of the said Ordinance has been, is being or is about to be committed and thereafter take or authorise the taking of all measures necessary for securing the production of the scheduled commodity in a Court.

12. If any dealer or producer with the intent that any provision of this Order may be evaded refuses to give any information lawfully demanded of him under the provisions of this Order or furnishes any information or submits any return which he knows or has reasonable cause to believe to be false or not true in any material particular, or conceals, destroys, mutilates, defaces any book or other document belonging to or under the control of such dealer or producer or if any dealer or producer fails to comply with any direction made under authority conferred by this Order, he shall be deemed to have contravened the provisions of this Order.

13. Any Court trying any contravention of this Order may, without prejudice to any other sentence which it may pass, direct that any scheduled commodity in respect of which it is satisfied that such contravention has occurred shall be forfeited to His Majesty.

14. The Provincial Government may, by general or special order—

(*a*) exclude any scheduled commodity or any class of scheduled commodities from the operation of this Order;

(*b*) exempt any person or class of persons from the operation of all or any of the provisions of this Order.

15. Nothing in this Order shall apply—

(*a*) to the possession or sale of any scheduled commodity intended for export from Bengal outside British India by a person holding an export license for the export of that scheduled commodity;

(*b*) to the possession or sale of any scheduled commodity by a person discharging a contract entered into with the Provincial Government where the possession or sale is in pursuance of that contract.

16. The provisions of this Order shall be in addition to and not in derogation of any other law for the time being in force regulating the keeping, storage, distribution, disposal or price of scheduled commodities.

By order of the Governor,
S. K. CHATTERJEE, Secy.

shall, if the Supervising Officer decides that such person is entitled to such paddy crop or share, be paid to such person.

(*2*) If any question arises as to whether any claim made under sub-section (*1*) is true or not or as to whether any or what amount of paddy is due to be handed over to any applicant under sub-section (*1*) or as to what cash equivalent is to be paid to any applicant under the said sub-section, the Supervising Officer shall decide such question after making such enquiry as he considers to be necessary and the decision of the Supervising Officer thereon shall be final and shall not be questioned in any Court:

Provided that nothing in this sub-section shall prevent any person from instituting a suit against a person to whom any paddy has been handed over, or the cash equivalent of the amount of any paddy has been paid under sub-section (*1*), after a period of three months has elapsed from the date of the decision of the Supervising Officer under sub-section (*1*), to establish his right to the paddy so delivered or to the cash equivalent of the paddy so paid and to recover the paddy so delivered or its cash equivalent, or the cash equivalent so paid, from such person, but, subject to the result of such suit, if any, the decision of the Supervising Officer shall be final.

Conditions of appointment of sureties.

over to him under this Ordinance and he shall be paid such remuneration in cash or in kind as may be prescribed and be required to furnish such security for the due performance of his duties under this Ordinance as the Supervising Officer may direct.

(*2*) At the time when any paddy which has been stored by any surety at the direction of the Supervising Officer under this Ordinance is delivered by the surety to any claimant under section 9 allowance for a loss in the amount of such paddy may be made up to five *per centum* of the amount of such paddy entered in the register maintained under section 8 in respect of the driage and damage consequent on storage, but, if the paddy so delivered shows a loss greater than the said five *per centum*, the loss in excess of the said five *per centum* shall be treated as a breach of the conditions on which the surety was appointed and such amount of the security as the Supervising Officer estimates is the cash equivalent of the loss in excess of the said five *per centum* shall be forfeited to His Majesty.

Imposition of collective fines in cases of obstruction to operations of Supervising Officer.

11. (*1*) The District Magistrate shall, if the Supervising Officer reports to him that it has not been possible for the standing paddy crop on the lands included in the list prepared under section 4 in any union to be satisfactorily harvested owing to any deliberate obstruction on the part of the inhabitants, or any section of the inhabitants, of such union to the operations of the Supervising Officer under this Ordinance, on the basis of the said list estimate the total amount of paddy which should have been harvested from the lands entered in the list and, if in his opinion there is any considerable disparity between the amount so estimated and the aggregate of the amounts which are actually recorded by the Supervising Officer in the register maintained by him for this purpose under section 8 as being the amounts of paddy actually harvested from such lands, and this disparity is in the opinion of the District Magistrate due to such deliberate obstruction, the District Magistrate may impose a collective fine on the inhabitants of such union equal in cash equivalent to the difference between the amount so estimated and the aggregate of the amounts actually harvested from such lands:

Provided that,—

(*1*) the imposition of such fine shall be made by publication of the order imposing the fine in such manner as the District Magistrate considers best calculated to bring the order to the notice of the inhabitants of the union;

(*3*) The portion of such fine payable by any person may be recovered—

(*a*) in the manner provided by the Code of Criminal Procedure, 1898, for the recovery of a fine imposed by a Court as if such portion were a fine imposed by the District Magistrate acting as a Court; or Act V of 1898.

(*3*) Where the owner cannot be found and has no such agent authorised to accept service of any notice or notification or order relating to a Working Plan on his behalf, the service may be made on any adult male member of the family of the owner who is residing with him.

Explanation.—A servant is not a member of the family within the meaning of this rule.

(*4*) Where the serving officer delivers or tenders a copy of the notice, notification, order relating to a Working Plan to the owner personally or to an agent or other person on his behalf, he shall require the signature of the person to whom the copy is so delivered or tendered to be affixed to an acknowledgment of the service endorsed on the original notice.

(5) Where the owner or his agent or such other person as aforesaid refuses to sign the acknowledgment, or where the serving officer after using all due and reasonable diligence cannot find the owner and there is no agent authorised to accept the notice or notification or order relating to Working Plan on his behalf or any other person on whom service can be made, the serving officer shall affix a copy of the notice or notification or order relating to a Working Plan on the outer door or some other conspicuous part of the residence or place of business of the owner and shall then return the original to the Regional Forest-Officer or the Officer authorised by him referred to in clause (1), as the case may be, with a report endorsed thereon or annexed thereto stating that he has so affixed the copy, the circumstances under which he did so and the name and address of the person (if any) by whom the residence or place of business was identified and in whose presence the copy was affixed.

(6) The serving officer shall, in all cases in which the notice or notification or order relating to a Working Plan has been served under clause (4), endorse or annex or cause to be endorsed or annexed on or to the original notice or notification or order relating to a Working Plan, a return stating the time when and the manner in which the notice or notification or order relating to a Working Plan was served and the name, address of the person (if any) identifying the person served and witnessing the delivery or tender of the notice.

(7) Where a notice or notification or order relating to Working Plan is served under clause (4) the Regional Forest-Officer or any officer under him authorised in this behalf shall examine the serving officer and may make such further inquiry in the matter as he thinks fit to satisfy himself that the notice or notification or order relating to a Working Plan has been duly served and if he is not so satisfied shall order such other service as he thinks fit.

(8) If service of notice or notification or order relating to Working Plan cannot be served in the manner provided in clauses (1) to (7) and if the Regional Forest-Officer or the person authorised by him referred to in clause (1) has reason to believe that the owner is trying to evade service thereto he may direct such notice or notification or order to be sent to the owner by registered post at his last known residence, address or place of business.

15. A copy of the approved Working Plan referred to in sub-section (2) of section 4 shall be sent to the owner by registered post with acknowledgment due.

16. (1) On the recommendation of the Appellate Committee the Conservator of Forests of the Forest Circle within which the forest of an owner is situated may grant him loans up to limit of five thousand rupees.

(2) Loans exceeding five thousand rupees shall require the sanction of the Provincial Government.

(3) A copy of the order granting loans shall be furnished to the Collector of the District concerned by the authority granting the loans.

17. The application shall, if in writing, be made as nearly as possible in Form A annexed to these rules. If an oral application is made, or if the application, though in writing, is made in any other form, the officer to whom it is made shall cause it to be recorded as nearly as possible in the prescribed form.

18. (1) The Appellate Committee on receiving an application for loan shall first see that the application has been made or recorded in the prescribed form, and shall cause an enquiry to be made by a Revenue Officer not below the rank of a Kanungo for the purpose of verifying the particulars mentioned on the reverse of Form A.

(*2*) The enquiry shall be conducted as expeditiously as possible and shall not be carried further than is necessary with due regard to the security of the loan.

(*3*) When land is offered as security, care shall be taken to ascertain what are the encumbrances (if any) to which it is subject.

(*4*) The Appellate Committee shall forward the application together with the report of the enquiring officer to the Regional Forest-Officer who shall examine the grounds set forth in the application with reference to the Working Plan approved under section 4 and shall report whether in his opinion the grounds set forth are valid or not.

19. (*1*) The Appellate Committee shall in considering an application afford to the applicant an opportunity to adduce evidence in support of his application.

(*2*) The Appellate Committee shall also afford an opportunity to the Regional Forest-Officer to adduce evidence in support of the report submitted by him under sub-rule (*4*) of rule 18.

(*3*) After considering the application and the evidence adduced the Appellate Committee shall state in writing its opinion as to whether, or not, a loan should be given and shall forward the application to the Conservator of Forests of the Forests Circle within which the forest of the applicant is situated with its opinion stating the reasons for such recommendation.

(*4*) If a loan is recommended the Appellate Committee shall specify,—

(*a*) the amount of the loan that should be granted and the rate of the interest that should be charged,

(*b*) the instalments in which the loan should be advanced, and

(*c*) the period within which and the instalments in which the loan should be repaid.

20. (*1*) When the applicant possesses a transferable interest in immovable property of a value sufficient to secure the whole amount that may become payable in respect of the loan, he shall ordinarily be required to mortgage such interest or a sufficient portion thereof to the Provincial Government as security for repayment of that amount, but the officer granting the loan may require or accept any other good security.

(*2*) When the applicant does not possess a transferable interest in immovable property sufficient for the purposes of security, he shall be called upon to procure some person or persons, possessing a transferable interest in immovable property of value sufficient to secure the whole amount, to become his surety or sureties for the repayment of his loan with interest.

(*3*) A loan shall not ordinarily be refused to a person who is in arrear for land revenue or for repayment of a previous loan, if the security offered is otherwise satisfactory.

N.B.—Lands which are not transferable without the landlord's consent shall not ordinarily be accepted as security. If the consent in writing of all the landlords in the following form has been previously obtained to the sale of the land in case of default, there shall then be no objection to accepting such lands as security:—

I/We.....son of.....
.....the landlord of.....estates,
in the district of..... .....do hereby pledge myself/ourselves to raise no objection to the sale under the Certificate Procedure of the land specified in the margin held by my/our tenant (name.....
.....) and proposed to be mortgaged by him as security for the

repayment of the loan of Rs.....under the Bengal Private Forests Act, 1945, in the event of the said..... failing to pay the whole or any part of the said loan with such interest as may be due thereon.

Such agreements shall be deposited in the Record Room with the record of the case.

21. (*1*) If a loan is sanctioned, the agreement in Form B annexed to these rules shall be executed by the applicant and the order prefixed to the said agreement shall be signed by the officer granting the loan.

(*2*) When the sureties, if any, whom the applicant is required to furnish give personal security only, they shall execute a bond in Form C annexed to these Rules; if they hypothecate immovable property, they shall execute a bond in Form D annexed to these rules.

(*3*) When immovable property is mortgaged as collateral security by the applicant or by his sureties the agreement in Form B or the bond in Form D, as the case may be, shall be attested by at least two witnesses and registered in accordance with the provisions of the Indian Registration Act, 1908 (XVI of 1908).

(*4*) When the required documents have been executed, and if so required under sub-rule (*3*), have been registered, a copy of the completed Form B, shall be handed to the applicant together with a notice in Form E, which shall be explained to the borrower.

(*5*) The original agreement with the bonds in Forms C and D, if any, shall be returned duly cancelled to the applicant, if he so desires, after the whole amount borrowed has been repaid with interest in full.

22. Payment of loans shall be made by a cheque issued by the Regional Forest-Officer on the Treasury of the District or the Sub-Treasury of the Subdivision in which the forest in respect of which a loan has been given is situated.

23. When an instalment of a loan is due, either it shall be repaid on or before the due date fixed for such repayment or (if circumstances justify it) an extension of the due date may be allowed, or certificates shall be filed. In case of delay in the payment of an instalment of a loan repayable in more than one instalment, it will be open to the Collector in accordance with the terms of the bond in Form B to declare the whole of the loan to be due and to proceed to realise it.

24. (*1*) In calculating interest a period of half a month or less shall be disregarded and any period exceeding half a month shall be taken as one month.

(*2*) The interest due on each payment date shall be calculated on the whole loan, or where a portion or portions have fallen due on a previous date, or though not due have been paid in advance, the interest shall be calculated on the whole loan minus those portions subject to the following provisions :—

(*i*) When an instalment of the principal of a loan is repaid after the due date, but within the financial year in which it falls due, no further interest shall be charged beyond what would have been due if the instalment had been paid on or before the due date.

(*ii*) At the end of the financial year, a record shall be made of the interest due on any arrear instalment in respect of which extension of the period for repayment has not been granted, and this interest shall be realised in respect of such arrear instalment on whatever date during the ensuing financial year such instalment is realised. Such interest shall be calculated and recovered at the rate of 1 pie, per rupee per month for each month between the date on which the instalment fell due and 31st March [a month being interpreted in accordance with sub-rule (*1*)].

(*iii*) If the arrear instalment is not paid by 31st March of the financial year that follows the financial year in which the default occurred, or if it is not paid during any subsequent financial year, a further demand of interest shall similarly be made and recorded for the additional year or years of default.

25. The Appellate Committee shall in all cases arrange that dates for repayment are fixed with due regard to the dates of sale of the principal forest crops.

26. (*1*) It shall be permissible for borrowers to repay their loans or portions thereof in advance of the fixed payment dates.

(*2*) In cases in which such advance payments are made, the interest levied at the time of the next payment shall be limited to the amount accruing on the portion of the loan left outstanding after the advance payment.

(*3*) Advance payments of principal shall be accompanied by the interest due on the amount of the loan up to the date of payment of the advance, so as to facilitate calculation of interest at the next payment, and the amount of principal repaid in advance shall not include a fraction of a rupee.

(*4*) The interest levied on the occasion of an advance payment shall be calculated on the number of whole months intervening since the last payment date.

27. (*1*) The Conservator of Forests of the Forest Circle in which the Forest of the applicant is situated is authorised on the recommendation of the Appellate Committee to grant suspensions of payment in any case where payment on due date would be burdensome on the borrowers.

(*2*) Each such suspension shall be reported to the Collector of the district concerned and the Provincial Government. No interest shall be charged for the period of suspension, and the payment of each remaining instalment due in respect of the loan shall be postponed to the date of the next instalment, and a new date fixed for the last instalment.

28. No remission may be granted without sanction of the Provincial Government.

29. Nothing in these rules shall be deemed to affect any power of the Provincial Government to grant in special cases loans under the Act on terms other than those provided in these rules, or to affect the terms of any special agreement under which any loan under the Act has been or may hereafter be granted, or the terms of any unexpired settlement.

(*2*) Subject to the provisions of these rules regarding the grant of loans, the recovery of loans shall be made by the Collector of the district concerned in accordance with the provision of sub-section (*4*) of section 8.

30. The procedure of a Board appointed by the Provincial Government to perform the functions of a Forest Settlement Officer referred to in clause (*9*) of section 2 shall be in accordance with the following principles:—

(*1*) When any action is required to be taken to perform the functions of a Board as set forth in clause (*c*) of sub-section (*4*) of section 10 the Chairman shall cause a meeting of the Board to be convened by a notice in writing to each member specifying the date, time and place of such meeting, and shall state therein the purpose thereof.

(*2*) (*i*) When action is to be taken under sub-clauses (*i*) and (*ii*) of clause (*c*) of sub-section (*4*) of section 10 the Chairman shall cause to be published in the neighbourhood of the land specified in the notification issued under sub-section (*4*) of that section a translation of the notification in Bengali or in any other vernacular as he may deem proper. The Chairman shall also publish a general notice in the neighbourhood of the land specified in the said notification calling upon every person who may claim any right

in or over the area specified in the notification to present such claims and any evidence in support thereof on the date and time and place specified in the general notice;

(*ii*) the Chairman shall convene a meeting of the Board in accordance with clause (1) at the time, date and place specified in the general notice and shall proceed to hold an enquiry into any rights in or over the land specified in the notification issued under sub-section (*4*) of section 10;

(*iii*) a claim presented in accordance with the general notice shall, if submitted orally, be reduced to writing. After due enquiry an order either admitting the right claimed in whole or in part or rejected it shall be recorded;

(*iv*) when a right is admitted in whole or in part, the Board shall consider whether the right should be permitted to continue to be exercised, or whether it should be extinguished. For the purposes of considering such matters, the Board shall give due weight to the technical opinion of the Regional Forest-Officer or any other Forest-Officer who may be called upon to give such technical opinion, in respect of the continuance or otherwise of such rights consistent with the provisions of the Act;

(*v*) such rights which the Board may permit to continue to be exercised shall be recorded, in detail;

(*vi*) if a right is to be extinguished, the Board shall proceed to determine, and shall record the amount of compensation that shall be paid to the person whose right or rights are thus extinguished. The determination of such compensation shall be in the manner and in accordance with the principles set out in sub-section (*5*) of section 10;

(*vii*) if it is determined under sub-clause (*ii*) of clause (*c*) of sub-section (*4*) of section 10 after due enquiry that any rent is payable to any landlord of land adjoining a forest as may be made over to any owner of forest under sub-section (*1*) of section 10, the Board shall determine and record the amount fixed;

(*viii*) the amount referred to in clause (*v*) of sub-section (*5*) of section 10 in respect of which no appeal shall lie to the High Court shall be such as does not exceed Rs. 5,000 in lump or Rs. 250 per mensem;

(*ix*) the Chairman shall cause to be published in the neighbourhood of the land made over to the owner a proclamation specifying the rights which may be exercised and also the date from which all rights not thus specified are extinguished.

(*3*) Any compensation determined under clause (*vi*) of sub-rule (*2*) which may be payable by an owner of a controlled forest shall be paid in the following manner:—

(*a*) the owner of the controlled forest shall deposit the amount of compensation in the nearest treasury or sub-treasury stating in the chalans the Regional Forest-Officer of the district in which the forest is situated and shall forward the receipted chalan to such Regional Forest-Officer as soon as possible;

(*b*) on receipt of the accepted chalan the Regional Forest-Officer shall cause the amount or amounts thus fixed to be paid in the manner and in accordance with the following principles:—

(*i*) compensation shall ordinarily be disbursed in the village by the Officer authorised by the Forest Settlement Officer, who shall not be below the rank of a Ranger,

(*ii*) on disbursement, the payment order, after having been properly receipted by the payee, shall be taken back by the disbursing officer who shall certify on it that the amount has been paid in full by him personally, or in his presence,

At least one tree per bigha is not cut, but is reserved as a seed tree. This is essential as Coppice shoots cannot be expected to arise indefinitely from stumps, and fresh seedlings are necessary to replace trees which die.

(*ii*) The term "Coppice with standards" means that a number of trees are not cut, but are retained to grow to a bigger size, the remainder being coppiced. The trees retained should be evenly spaced and should ordinarily not be less than 6 to 8 per bigha.

(*iii*) *Clear felling and planting.*—This system means that all trees on an area are felled and other seeds sown or seedlings planted in the cleared area.

This system is normally used only:—

(*a*) when the original crop is so thin that one or other of the systems mentioned under note (*i*) or (*ii*) is not suitable or

(*b*) when the crop consists of species which do not produce coppice, or

(*c*) when it is required to replace the original species by another species.

9. *Rotation.*—This is the term used to indicate the period which must elapse before a tree, or area felled is again felled. Under a Sal coppice with retention of seed bearers' system, the rotation should not normally be less than 10 years for the Coppice; seed bearers should be retained until they are 30-35 years of age.

Under a "Coppice with standards" system, the rotation for coppice should not normally be less than 10 years, and that of standards not less than 30 years.

The rotation for a system of clear felling and planting depends on the species. For sal it may be taken as 30 years for the production of "house post" size trees.

10. *Calculation of maximum felling per year.*—This is based on the rotation and the total amount of growing stock on the area and is calculated in terms of acres *per annum* by dividing the total area available by the rotation. The areas thus obtained may be termed the annual felling area. It is obvious that, by this method, an area is not felled again until a "rotation" has elapsed.

In order, however, to provide for inequalities of the density of the crop of the whole area, it may be permissible to increase or decrease the area calculated as above, so that approximately equal amounts of produce will be obtained annually throughout the rotation. If this is done it is necessary to prescribe that in every fifth year the area felled over is adjusted to ensure that the total area felled during the 5 years will not exceed five times the annual area permitted as calculated above.

Note.—An example is given as follows:—

Total area of forest	.. ..	1500 acres.
Rotation ..	.. ..	10 years.
Therefore annual felling area	.. .. ..	150 acres.
1st year felling area	.. ..	150 „
2nd „ „ „	.. ..	180 „
3rd „ „ „	.. ..	100 „
4th „ „ „	.. ..	120 „
5th „ „ „	.. ..	200 „
	Total	750 acres, i.e., 5 × 150 acres.

11. *Felling plan.*—The area which it is proposed to fell during the period of the plan should be tabulated in accordance with the calculation given in paragraph 10. These may be tabulated as follows for each year in sequence :—

Year of felling.	Locality.	Area.	Remarks.

12. *Method of felling.*—In order to ensure that trees are not damaged during felling operations it will be necessary to arrange that,—

(*i*) fellings are completed by the middle of March so as to ensure that no operations likely to damage new growth occur at the start of the growing season,

(*ii*) where Sal is being coppiced, trees are not felled higher than 6″-9″ from ground level. Stumps should be clean cut,

(*iii*) except for seed trees or standards to be retained, all trees irrespective of species should be felled. If species other than Sal are left for any reason: *e.g.*, *Piasal*, *Kusum*, *Mahuwa*, it should be remembered that they will to a great extent prohibit the proper growth of *Sal* and should be spaced out where necessary by thinning in order that when eventually these trees are cut or die, large blanks will not occur.

(*iv*) if burning is to be carried out to remove brushwood, burning should be completed not later than the 15th March.

(*Note*:—Burning cannot be permitted after the growing season starts.)

13. *Protection and tending of the young crop.*—It is not normally sufficient to expect a crop to grow without assistance as there are many injurious factors which cause harm to forest crops. The ultimate increased value of crops thus assisted depends on the extent to which such assistance can be given and the money spent thereon.

The following cultural operations should be followed:—

(*i*) *Climber cutting where necessary according to a fixed programme.*—This if required should be done on a 5 years cycle, that is the whole area will be climber cut over every 5 years.

(*ii*) *Fire protection.*—Fire in young crops causes considerable damage and fire lines should be cut in large blocks of forest to prevent fires spreading over whole areas. Where blocks of forest occur in isolated patches, this will not be normally necessary.

(*iii*) *Reduction of the number of stems in coppice.*—Stumps often produce more shoots than the stump can properly support. In order to obtain stout healthy stems, it is often necessary to thin out the shoots. It is not possible to prescribe any particular number of stems per stump, as this varies according to the healthiness of the original tree, its age and the fertility or otherwise of the particular area. Generally this should be done from 3-4 years after felling.

(*iv*) *Closure to grazing.*—Cattle grazing seriously affects young crops and provision should be made to prevent cattle entering into young crops, either by fencing or the enforcement of penalties for allowing cattle into the area.

14. *Regulation and limitation of rights of user.*—The cutting of fire-wood, or trees in areas other than those where such is permissible, excessive cattle grazing, lopping or cutting for fodder are three factors which lead to deterioration of forests. Where such practices form rights of user they must be regulated, if possible. Arrangements to this effect should therefore be included as follows:—

(*i*) cutting of fire-wood, poles or trees outside those areas prescribed in the Working Plan should be prohibited;
